

Boca Benefits Consulting Group, Inc.

Employee Benefits Brokerage & Consulting
30 Years Industry Experience

Creating The Best Teams For The Task At Hand Since 1980

Background

The best way to get to know a little about Boca Benefits Consulting Group, Inc. ("BBCG") is to visit one of the many electronic resources we provide (see below).

A thumbnail on us: BBCG is by law an independent Florida based insurance agency. We can access virtually any insurance carrier for a client, as we are not captive to any one. BBCG provides both commission based brokerage services for all employee benefits products and at times provides fee-for-service consulting when that is the desired approach. We will work with virtually any sized client. BBCG's founder, Robert W. Murphy, has experience in working with jumbo self-insured clients down to the smallest mom & pops. BBCG also provides electronic quoting of non-group individual medical plans through one of the premier national carriers. BBCG also is appointed with major carriers to provide healthcare plans for short-term and long-term travelers/residents abroad. Lastly, BBCG's sister company, 1MSC, has been established to close the service loop with employers by providing various other insurance and strategic planning solutions.
